Navy Uniforms News

Shipmates, welcome back to Navy Uniform News. In our last Newsgram we discussed the Navy Working Uniform (NWU). To continue our discussion of the Navy's newest uniforms, we dedicate this edition to the E1 through E6 Service Uniform (SU).

The SU is possibly the most popular uniform ever with our E1 through E6 Sailors. The two-year rollout will be complete July 2010, but we sometimes receive questions concerning the manner of wear of the SU. So let's take a few moments and revisit the components of this uniform.

Uniform Components

The Cap is a black, unisex garrison cap. It is worn squarely on the head with the fore and aft crease centered between the eyebrows, with the forward end lower edge of the cap approximately 1 inch above the eyebrows. Petty Officer's E4 through E6 must wear the large metal rank insignia on the left side of the cap positioned with the center of the device 1 1/2 inches from the bottom edge of the cap and 2 inches from the forward edge of the cap with the eagle facing forward.

The Shirt and Overblouse are khaki color, short sleeve, 75/25 polywool blend. The shirt is worn tucked into the pants by males while the overblouse, as the name implies, is worn bloused over the pants or skirt when worn by females.

The miniature collar devices are worn by E2 through E6 personnel centered 1 inch from the front and lower edges of the collar and positioned on the vertical axis of the insignia along an imaginary line bisecting the angle of the collar point with the eagle facing forward. The white T-Shirt is mandatory for males and optional for females.

The pants and skirt are both black, 75/25 Poly/wool blend. Males wear pants with a black belt and silver buckle. Females wear beltless pants or the optional skirt. Pants should be hemmed in the back to top of the heel of the shoe and hemmed in the front to at least the third eyelet of the shoes.

The Shoes. Only black service shoes are authorized with the SU. Pumps are authorized as optional wear for females. Black socks are worn with the shoes.

United States Navy Personnel ...

must set and maintain the highest standards of personal appearance. The military image reflected by attention to detail, while wearing your uniforms, is a key element in establishing a positive public image for our Navy.

*Navy Uniform Regulations

This is the same size rank insignia worn on the Garrison Cap.

Note: Female Sailors shall gently “roll” the blouse up and under the jacket or sweater as to not be visible below the bottom of the jacket or sweater.

Please note, the black pointed collar jacket (without epaulettes) is not authorized to be worn with Service Uniforms.

Ball Caps:

Can the Ball Cap be worn with the NWU?

HM2 (AW/SW) Omar A. Garcia

Answer: Petty Officer Garcia, in general, ball caps are not authorized to be worn with the NWU. However, the CNO recently approved a policy modification that allows ball caps to be worn with the NWU and Camouflage uniforms during specific evolutions where identifying designated members of command training and watch teams is required. Specifics of this policy were announced recently via NAVADMIN.

Cover for Aircrewmembers:

With the new uniforms coming out... what do the E-6 and below aircrewmembers wear for a cover?

AWF1 Nill

Answer:

Petty Officer Nill, the CNO has recently authorized the Black Garrison Cap to be worn with the flight suit. The Navy/Command Ball Cap will continue to be authorized for wear with the flight suit.

NWU Undershirt:

"Good morning...I have recently started wearing the NWU. My suggestion is that the undershirt for coveralls be changed to the blue undershirt of the NWU..."

ETCS (SW) Gary Ullrich

Answer:

The CNO has authorized the Blue T-Shirt (in place of the white T-shirt) as a "basic" component for the Navy coveralls beginning 1 January 2011. The shift to the Blue T-shirt is executed on 1 January 2011 to align with the mandatory wear date of the Navy Working Uniform, when all Sailors must have the NWU in their Sea Bag.
